THE SOUNDS GOOD ENGLISH PHONICS METHODOLOGY ALIGNS WITH CEFR.

All students are tested before starting an English language course with us. Following this assessment, we design the course syllabus for each student individually.

Each course we offer contains two essential elements:

- our successful foundation phonics programme specifically designed to help Asian students to learn English like a native-English speaker.
- a choice of English language course from beginner to advance level covering either General English or English Examination preparation.

Then, to ensure, a successful experience for the student:

- We provide personalized learning programs, choosing the right course combination according to the student's needs and goals, and arranging a study plan and schedule.
- We conduct testing throughout the course to monitor the student's progress.
- We provide feedback to students and parents, discussing students' progress, strengths, and areas for improvement, and providing further learning suggestions and plans.
- We deliver professional, qualified teachers native English-speaking teachers who are all trained to teach the Sounds Good English methodology. Our teaching team is headquartered in Ireland.

Sounds Good, Sounds Very Good!
